

HUSKY LEADERSHIP INITIATIVE SUSTAINABLE ACADEMIC BUSINESS PLAN 2016

What is our essential core?

OUR MISSION

Through cross-campus collaboration, the Husky Leadership Initiative facilitates, deepens and expands student leadership education opportunities at the UW both in and outside the classroom. HLI cultivates the knowledge, skills and attitudes students need to be effective change agents and contributing members in their communities.

OUR PHILOSOPHY AND APPROACH

Leadership can be taught and grows out of experience, practice and reflection. Leadership is not about position; everyone can engage in leadership. Students are partners and co-creators of the university experience. Collaboration amongst the many leadership education efforts across campus is critical for knowledge generation, student learning and organizational functioning. Our community partners are our co-educators.

What will the future look like?

HUSKY LEADERS IN THE 21ST CENTURY

All UW graduates are effective change agents and contributing members in their communities.

How do we get there from here?
